

Supplementary Material Outline

Appendix Outline 1. Dataset composition and annotation protocol. 2. Model lane registry and provenance. 3. Evaluation metrics and normalization rules. 4. Statistical testing details. 5. Runtime and compute environment. 6. Error taxonomy. 7. Additional department-wise tables. 8. Reproducibility checklist.

Artifact Description

Artifact Description ClinDoc-Bench-IN contains frozen benchmark reports, reproducible evaluation scripts, publication figure/table generation scripts, and anonymized example assets. The final frozen benchmark marker is

`benchmark\_v2/final\_day\_freeze\_20260709/reports/FINAL\_BENCHMARK\_FROZEN.txt`.

Reproducibility Checklist

Reproducibility Checklist - Frozen benchmark marker present. - Final model registry present. - Server 1 and Server 2 provenance recorded. - Statistics computed on 125 documents. - Figures and tables generated from frozen CSVs. - Public examples anonymized using opaque boxes. - Environment variables documented in ``.env.example``.
